

Software Developer

Company Profile

Voice Directed Tally Systems, Inc. is a technology corporation that provides enterprise-wide voice recognition solutions that result in process improvement and increased workflow efficiencies. Our focus since 2003 has been in the forest industry where we continue to provide Voice solutions for hands free, eyes free data capture in Canada and the US. Anywhere that products are valued, processed and audited, VDTS voice solutions provide an extremely efficient workflow. We have recently expanded our innovation to the agriculture sector, providing hands free data acquisition for trait development, in the lab and in the field. We are a RealWear Partner and a Honeywell Total Solutions Provider located in Belleville ON.
